

# VINO PENDANT

The Vino Pendant is hand spun in our factory from 1100-0 grade aluminum and finished to specification. These fixtures feature a unique rolled front edge with no visible hardware. A matte white opaque lens shields the LEDs and provides visually comfortable illumination. Delivering over 4000 lumens these pendants can be the main functional lighting in a space or dimmed down to provide ambient light. The fixtures have integral best in class LEDs and drivers for long maintenance free life. There are a variety of color finishes, mounting options, cord color as well as kelvin and dimming options. As with all Spectrum fixtures, these are proudly precision crafted in our Fall River Massachusetts factory.
